

# ≡ Trimble Correction Services

Initialization Time	Service	Horizontal Accuracy
Instant	 <b>VRS Now™</b>	< 2 cm
< 1 min   < 15 min <small>(In Select Regions)</small>	 <b>CenterPoint® RTX</b>	< 2 cm
< 1 min   < 15 min <small>(In Select Regions)</small>	 <b>FieldPoint RTX™</b>	10 cm
< 5 min	 <b>RangePoint® RTX</b>	30 cm
< 5 min	 <b>ViewPoint RTX™</b>	< 50 cm

RMS performance based on repeatable in field measurements. Achievable accuracy and initialization time may vary based on type and capability of receiver, user's geographic location, GNSS constellation health and availability, and level of multipath including obstructions such as large trees and buildings.

## HOW TRIMBLE RTX WORKS
